ACADEMICS

COURSE	INSTITUTION	BOARD	AGGREGATE	YEAR
B.Tech (Computer Science Engineering Batch: 2023-2027)	Sree Narayana Gurukulam College of Engineering	KTU	7.26 till S5	2027
Class XII	Vidyodaya School, Thevakkal	CBSE	83%	2023
Class X	Rajashree S.M Memorial School, Aluva	CBSE	81%	2021

AREAS OF EXPERTISE

- **Technical Skills:** C, Python, Rust, Excel, Java, Dotnet, Git, Powerpoint, Canva, Figma
- **Areas of Interest:** App Development, Cryptography, Web Development, Policy Consulting, Designing
- **Operating Systems Known:** Windows, Linux
- **Soft Skills:** Teamwork, Creativity, Leadership, Strategic Thinking, Problem Solving

WORK EXPERIENCE

Company: BSNL LIMITED **Post: Network Intern** **Duration: 1 Month**

- Gained hands-on experience with **network protocols, server management, and security applications**
- Assisted in **network configuration, troubleshooting, and monitoring**
- Developed a foundational understanding of **telecommunication infrastructure**

PROJECTS

- **Project: Axis Suite** **Team Size: 2** **Duration: Ongoing**
  - Led the design and development of **AXIS Suite**, a Windows-based tool that automates WCAG accessibility audits by detecting issues such as color contrast, missing alt text, heading structure errors, and keyboard navigation gaps using Puppeteer and Chrome DevTools Protocol, reducing manual testing effort through scalable automated workflows and a WPF-based reporting interface.
  - **Role:** Team Lead and Lead Developer
  - **Technology(s) Used:** C#, Dotnet, WPF, Chrome SDK,Puppeteer
- **Project: Satellite Check** **Team Size: 4** **Duration: 1 Month**
  - Designed and led the development of a real-time satellite tracking terminal application in Rust, featuring a responsive TUI, asynchronous data updates, and optimized memory and concurrency handling to ensure stable performance on low-resource systems.
  - **Role:** Project Lead and Lead Developer
  - **Technology(s) Used:** Rust, Ratatui, Crossterm, Anyhow, Tokio
- **Project: Iron Armour** **Individual** **Duration: 1 Month**
  - Developed **Iron Armour**, a secure Windows-based password vault with AES-256-GCM encryption, multi-user authentication, and optional MySQL synchronization, implementing zero-knowledge architecture and automated password management features to ensure high-security storage and seamless cross-device access.
  - **Technology(s) Used:** C#, .NET 9, WPF, Entity Framework Core, MySQL, AES-256-GCM, PBKDF2, BCrypt, REST API, JWT Authentication

Sree Narayana Gurukulam College of Engineering
APJ Abdul Kalam Technological University

- **Project: Haloynx Secura Messenger** **Team Size: Team of 4** **Duration: Ongoing**
  - Designed and led the development of a secure web-based messaging application using a USID-based identity model, end-to-end encryption, and a lightweight Node.js relay server, enabling private real-time communication without reliance on phone numbers or email IDs, while ensuring client-side encryption, local-only message storage, and minimal metadata exposure.
  - **Role:** Project Lead and Backend & Cryptography Engineer
  - **Technology(s) Used:** HTML, CSS, JavaScript, Node.js, WebSocket, Web Crypto API, Signal Protocol

COURSES AND CERTIFICATIONS

- Completed a course on **Career Essentials in GitHub Professional** by **Linkedin Learn** in association with **Github**.
- Completed a course on **Career Essentials in Generative AI by Microsoft and LinkedIn** Flow by **Linkedin Learn** in association with **Microsoft and Linkedin.**
- Completed a course on **Databricks Foundation Accreditation** by **Databricks Academy**

POSITIONS OF RESPONSIBILITY

- **Joint Creative Lead, IEDC SNGCE**, Sree Narayana Gurukulam College
- **Student Council Member,** Hive Department of Computer Science Engineering
- **Campus Lead, Tinkerhub SNGCE 2025,** Sree Narayana Gurukulam College
- **Joint Web Lead,Mulearn SNGCE 2024,** Sree Narayana Gurukulam College
